Will your Egg Sign be out this winter?

THERE'S a reason why the users of Purina Poultry Chows have eggs for sale when prices are highest. Purina Poultry Chows are made by an organization that's had 34 years experience mixing poultry feeds. Purina has the machinery to mix Poultry Chows thoroughly. Purina has the experimental farm to test Poultry Chows practically. Purina has the chemists and biological laboratory to prove Poultry Chows scientifically. That's why Purina Poultry Chows are rich in the very stuff that eggs are made of. That's why Purina Chicken Chowder and Purina Hen Chow build up a reserve that keeps the birds laying all winter and paying all winter. Order Purina today.

NEXT DOOR TO PICTURE SHOW

YOUR MONEY WILL REACH A LONG WAYS HERE. THANKING YOU ONE AND ALL, WE ARE, YOURS VERY TRULY,

# TOUCHDOWN!

Riots of color, frenzied cheer leaders, howling mobs on the side lines! What would November be without football?

Almost as bad as Thanksgiving without turkey and 'fixin's!'

Perhaps some of us need a bit of the spirit of football in our business. The will to win-and the determination to 'take the ball and run with it.' This can be applied to all of us.

But football players don't 'run wild.' The goal is always in sight, each play is carefully planned, in advance, and the players keep continuously at it.

There's a lesson here for advertisers. Don't start until you know where you are going-but after you start, DON'T STOP! Just a 'circular' now and then will never carry you between the goal posts.

BRUNSON SCHOOL If you want to find a roomful of happy school children and teacher, take the New Brockton and Victoria road. On the top of a hill seven miles from New Brockton and five miles from Victoria you will find the Brunson school. Should you come during a rainy spell we will promise that you will always remember the clay hills and the branches. The road is graded, but rainy weather makes it almost, if not quite, impassable.

Brunson school is one of the oldest schools in Coffee county, Fifty-three or fifty-four years ago in an old log house that had a split log chimney with a stick and mud funnel, Brunson school was begun. This building was used both as a church and school building. It stood near the present site of Woodland Grove church on the

site of Woodland Grove church on the

mg three years.

Will be held at Zion Chapel school on Friday, November 16th. There will see of remedial measures.

CHAPEL PROGRAMS ened interest exist in our Who's staging the best program is the question affoat. It's each grade, with its teacher as a leader, that's deavoring to present the clevere Chapel is no longer a bore and tar-

dies no longer exist, for everyone claims a share of the fun that's al-Our teachers and their grades will have charge of our programs. A scheduled plan has been arranged which shows one teacher and his class having charge of the morning exerse until each grade has taken part, his manner of conducting the mornng exercises has proven so effective hat our plan schedules this type of program throughout the year.

Our programs are quite varied and always a surprise to those not ren-dering them. Quite a bit of laugh-ter was created the other morning when the Senior II's gave a program
which consisted of impromptu parts
by each of the teachers. The numbers were such as:
Miss Miller, being called upon to give the seven best jokes she knew, gave the names of seven members

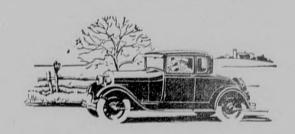

Miss Stone was called upon to talk upon any subject she wished until the huge piece of ice which was placed in Mr. Kyzar's hand melted. Miss Beverly was asked to give ten rules of table etiquette and her rules of eating peas with your knife, drink-ing coffee from your saucer and other well-known correct forms of eating were given.
Mr. Vines was asked to display his vocal talent and in response he sang "Yankee Doodle." Another program which was given great applause was the Baby Show presented by the Senior I's. In this a milk drinking contest was held and

the baby, Lemuel Oscar Kyzar, won ed that were equally as effective. Our chapel programs now are the most enjoyable feature of the day. By Kinston School.

Alabama's farmers, more than any other group, should be interested in the industrialization of

Each family in Birmingham consumes an average of approximately \$600 of food products each year, according to statistics of the U. S. Department of Labor. Of these, foods to the value of \$450 are or could be produced in Alabama. Out of every dollar of average family income in

Huntsville, 40c is spent for food products, the Department of Labor estimates, or 30c for those grown in Alabama. Thus the establishment of a new industrial plant, employing say 500 new workers and creating an annual payroll of about \$500,000, estab-

lishes an annual potential market for \$150,000 of

agricultural products that are or could be grown by the farmers of that vicinity. Plants using farm products as raw materials are of even greater benefit to agriculture. Tus-caloosa's new condensary will purchase approximately \$1,000,000 of milk each year, a sum equal to the value of a 10,000 bale crop of 20c cotton. The new kraft paper mill at Tuscaloosa will afford an annual market for something like 100,000 cords of pine wood, giving a cash value to the

and the conservation of timber on the farm The farmers of Alabama can assist in the industrialization of our State, and thus aid in establishing new markets for food products at home, by giving support to efforts to attract new industries to their localities.
